English

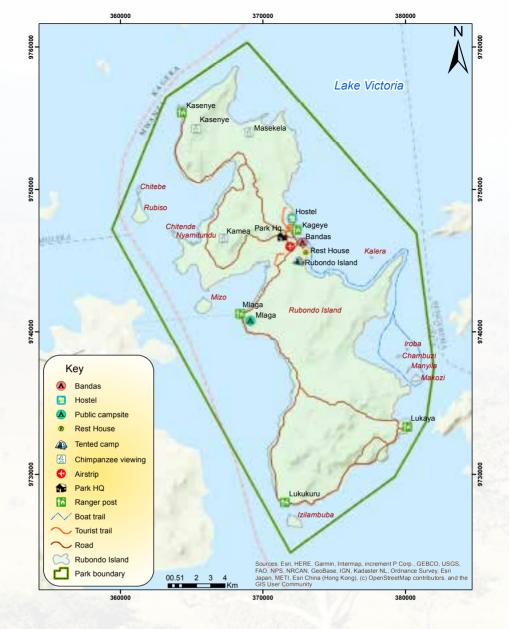

Welcome to Rubondo Island National Park!

The largest island national park in Africa, Rubondo that lies in the Southern part of Lake Victoria - the world's second largest lake after the superior welcomes you to see the surprising number of mammals including the famous Sitatunga, nocturnal Civet and Genet as well as a number of other antelope species that are found in the dense forest. On the shores of the island and smaller bodies of water there are serrated hinged terrapins which lay eggs between March and April.

Walking through the dense forest, the park offers you a chance to see a lot of butterflies, orchids that grow on the island and bird species. The park also has variety of habitats inhabited with wildlife including Velvet monkeys, Genet cats, Spotted necked Otters, Hippos, Crocodiles, Chimpanzees, Elephants and Giraffes.

The park has a great variety of tourism products to choose ranging from walking safari, game drive, bird watching

canoeing to sport fishing. Our friendly, knowledgeable, customer service oriented staff are committed to providing you with the best possible service.

We promise that your visit in this park will make your mind get refreshed and become in touch with nature, we recommend that you choose this wonderful and tranquil place to view wildlife in their natural environment.

Brief History of the Park

Rubondo Island became a game reserve in 1965 which its main function was to provide a sanctuary for wild animals. It is latter gazetted as a national park in 1977 and covers an area of 456.8km2.

Getting there

By Boat: By using own boat from Mwanza to Kageye Park Headquarters.

By Road: From Mwanza to Muganza 270km.

By Air: Scheduled and chattered flights from Arusha, Bukoba, Kilimanjaro, Dar-es-salaam Mwanza and other major cities.

Climate

There is a bimodal rainfall with short rains from October to December and long rains from March to May. The average temperature is 22°C all year around (25-32°C daytime, 15-20°C night time).

Wildlife

Known as the jewel of Victoria, Rubondo Island National Park boasts a unique diversity of flora and fauna including the endemic Sitatunga. Other animals you are likely to spot in the Park include Hippos, Otters, Bushbucks, Mongoose, Elephants, Suni antelope and a variety of primates that even been known to include the parks' resident chimpanzee population.

Birdlife

The park housed a variety of water birds, Eurasian migrants, introduced African Grey Parrots and high density of African Fish Eagles which are distinctly seen.

Lake Victoria

The lake forms a spectacular sight for visitors with its deepest point (irumo gulf) being the part of the Park

• The remnants of Congolese dense forest

The representatives of evergreen dense primary lowland forest with a unique habitat mosaic in the midst of high biodiversity value provides a magnificent view of one of the last raining Congolese forest in Western Tanzania.

· Beautiful beaches

Beautiful and attractive beaches such as Fly catcher, Mchangani and Michicoco provides a unique look of this fresh water lake

• The deepest part of the lake - Irumo gulf

Irumo is the deepest part of Lake Victoria. This gulf provides a good and clear sighting of both sunrise and sunset making the sky beautifull

Altare and Solo Cultural Sites

"Ntungamirwe" or "Maji Matakatifu" or "ALTARE" and SOLO are cultural sites found inside the park which explain the life of natives who once stayed in the park.

Tourism Activities

Game drive

The park offers an exceptional game viewing experience while inside the dense forest dotted with open woodlands. During the game drive encountering a number of the indigenous species such as Hippos, Bushbuck, Velvet Monkey, Sitatunga, Crocodiles, Elephants, Chimpanzee, Giraffe, Black and white colobus monkeys, Suni Antelope, Grey parrot, Buffalos, Bush pig, Hyrax, Warthog and large spotted Genet cat makes your visit memorable.

Rubondo Island is equipped with a variety of fishing techniques including trolling, spinning live, dead bait and fly fishing. Anglers from around the world travel to this island for the opportunity to reel in a Nile perch, one of Africa's biggest and most sought- after water fish. The spot fishing practice is catch and release policy. Don't ever miss out this chance by planning your trip to Rubondo.

Bird Watching

The island has an abundance of herons, storks, ibises, egrets, cormorants, kingfishers and birds of prey. You will be amazed by the high density of fish eagles that not found anywhere else. Please plan trip to come and visit this precious Park.

Boating and Canoeing Safari

Guided canoe trips offer a different perspective of the island and across the quite unlets as well as covers places that can't be reached on foot. Paddle yourself or be paddled by a guide as you trace the coast-spotted wildlife both aquatic and terrestrial. However, explore the different channels of the second largest lake in Africa.

Chimp trekking in the dense forests is a magical experience where you can walk and experience nature with all your senses. Sharing of more than 98% of our genes Chimpanzees are as individually unique as humans.

- Filming For commercial purposes
- Camping Provides you with an opportunity to spend you night listening to beautiful bird songs coupled with sounds from nocturnal.

Available tourism facilities

The Park has a variety of accommodation facilities including tented lodge, cottages, public and special campsites.
